Access Nearpod from Home
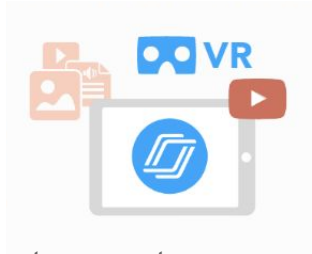

nearpod

BAFCA will use Nearpod as part of its Virtual Classrooms within its E-Learning courses.
This overview will help you and your student access from home.

What is Nearpod?

Educators create interactive lessons with questions learners can answer.

Learners join the lesson in one of two modes: educator-led, or learner-paced.

Educators see how learners respond in real-time, and after the lesson in a report.

Educator-Led vs Learner-Paced

EDUCATOR-LED

All learners join the lesson at the same time, and the educator controls the flow of the lesson.

LEARNER-PACED

Learners can join and complete the lesson on their own time, as long as it's before the work is due to the educator.
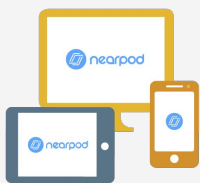

Nearpod allows educators to...

✓ Deliver engaging lessons from anywhere, any time

✓ Get real-time insights into student learning, even when they're not together

✓ Easily upload existing plans, so the same learning can happen at home

✓ Allow learners access on any device, including mobile, with no password required

It's easy for learners to access Nearpod from home, no account required!

1

Visit nearpod.com/student or download the Nearpod app.

Nearpod works on any device with internet!

2

Enter the code provided by your teacher and sign in with your first name and last initial.

nearpod

Join a Session

Your teacher will give you a CODE to join the lesson.

Enter CODE   Join

3

Participate in the lesson by completing the questions on the screen! Your educator will see your responses on their computer.
